

BizM00C @ Knowlegde Alliance Cluster Forum in Brussels

From 31/01-01/02 the Knowlegde Alliance Cluster Forum took place in Brussels. University and business representatives from 62 projects exchanged experiences, shared the latest developments and met with their project officers from the EACEA. BizM00C was there with Nina from IT Valley and Chris from FH JOANNEUM. New links have been created, new synergies identified and new project ideas drafted. A truly inspiring event.
