

BizM00C survey and interviews almost done

We have already received almost 1.200 answers to our BizM00C survey – thank you very much for participating and contributing to our research! The survey stays open until the end of the week (26th June), afterwards we will conduct the evaluation. The results will be incorporated in our M00C BOOK, which will go live on this website.

Also, the majority of the 110 qualitative interviews are carried out and we have started with our analysis. We would also like to thank all universities, businesses and organisations for participating.

We are very curious about the results and we will keep you updated.
