

National Round Table in Austria

36 guests, 4 key experts and 1 moderator – a mix of corporates, entrepreneurs, edupreneurs, policy-makers, lecturers, students etc. – had a lively discussion on 13th of September in Graz, Austria regarding “M00Cs – muss das sein” (“M00Cs – is this really a must?”). The Austrian BizM00C round table introduced the participants to the core results of the project and followed-up with a discussion how the main project outcomes (especially the M00C B00K) and M00Cs in general could be uptaken on a broader scale for the benefit of all. We want to thank all the experts and guest for the valuable inputs and

so positive feedback!!!
