

When I talk to people about our project and what MOOCs it offers, I do get asked a lot of times questions about intrapreneurship and its specifics. So, what is intrapreneurship? Well, *intrapreneurship* is the act of behaving like an entrepreneur while working within a large organization. And if you ask yourself questions like *How do I present my business idea to my team?* or *Is it too risky to try to implement my ideas at my workplace?* then our MOOC 3 could be just the thing to help and make you a great intrapreneur!!!
