

Fantastic news! Our Intrapreneurship MOOC made it in the **Top 3 of the Teaching Innovation and Entrepreneurship Excellence Award at ECIE 2018 in Aveiro, Porto.**

Out of 32 submission, 11 creative and high quality teaching approaches were selected for the Final round and invited to present their cases in Aveiro, Porto at the 13th European Conference on Innovation and Entrepreneurship in front of an international jury. Chris and Agnes presented our MOOC on Intrapreneurship and even made it to the Top 3, where they got invited to do a second presentation to the whole conference audience before the conference closure. We feel extremely honoured to became part of this exclusive circle.

Besides, we also presented the poster “Rescue through the back-door: Can MOOCs become a large-scale bottom-up innovation driver in companies?”, based on BizMOOC results.
